A DECLINE IN THE STOCK MARKET

Advance of the Bank of England Rate of Discount.

GOLD UP TO 115 1-4.

Normal Influences Intensified by Clique Interference.

THE MONEY MARKET STRINGENT

The Inconsistent Relations of Gold and the Foreign Exchanges.

Why the Bank of England Raises the Discount Rate.

Food for Financial Philosophic Thought.

WALL STREET, THURSDAY, Oct. 3-6 P. M. On 'Change to-day cotton was in good demand and an 3.c. per pound better. Flour remained steady, while wheat and corn were rather easier, but not quotably lower.

Operations and business in the Wall street markets were guided from the outset by the sudden THE BANK OF ENGLAND

directors at their weekly meeting this forenoon had raised the minimum of the discount rate a further one-half per cent to 5 per cent. This action was explained in part by a subsequent cable despatch stating that the bullion of the bank had undergone a further decrease for the week of ever half a million pounds. The raising of the rate of discount is regarded as an anticipation and preparation against the further export of specie from England, particularly in the direction of the United States, our imports, large as they have been, not having kept pace with the

TRANSFER OF FOREIGN CAPITAL
to this country, both in the banking business directly and through the negotiation of American railway loans. The intelligence had at first little effect on gold, the market for which, while controlled by the clique operating, was inherently weak under its tendency to sympathize with the low rates for foreign exchange. The early effect in foreign exchange was to cause a little firmer feeling in sight bills, but otherwise quotations remained as before—viz., 107% for PRIME STERLING,

pixty days, and 108% for sight bills, with a discount so large buyers of % a % per cent. Subsequently, when the gold chique renewed their operations in the gold loan market, and caused % per cent to be bid for the use of gold to-morrow, exchange broke down and was to be had at as low as 107 for sixty-day and 108% for sight bills of prime drawers. These rates are pretty near the point which will allow of bringing specie from the other pide. The effect of the advance of the Bank of England discount rate upon
THE LONDON MARKET

was to depress consols and five-twenties % a % per cent, but the latter recovered and the '67's ad-wanced to higher prices than before, closing at 92%, against 921/4 yesterday, the lowest quotation after the alteration of the bank rate having been 9214. The buoyancy of American securities seems, therefore, sepress the outflow of money from London. MONEY STRINGENT.

The money market was stringent as a conse quence of the persistent locking-up operations of the "bear" cliques at the Stock Exchange, whos plans are aided by the confessed poverty of th city banks. The government money was of little avail against them, for they contrived to absorb it almost as fast as it came from the Sub-Treasury The rate on call advanced from 1-32 early in th

at three o'clock, and closed at 7 per cent, gold at a quarter past three o'clock, the last loans being made by parties who got their money from th Treasury at a late hour. THE POULVALENTS

of the rates just specified are 11 per cent for th opening, 52 per cent for the highest and 8 per cer for the closing transactions of the day. Very natu ally, there was nothing doing in mercantile pape and quotations are only nominal. THE GOVERNMENT SALE OF GOLD.

The offer of the government to sell a million gol elicited bids for a total of \$4,303,000 at prices rang ing from 113.60 to 114.57. The clique brokers bi for \$2,000,000 at 114.57, and were awarded half the amount at their price. The restriction of the sal to a single million was not generally anticipate after the extra purchase of five-twenties yesterday and the announcement caused an
ADVANCE IN GOLD TO 115%,

the lowest price having been 114%, the ris being helped by the direct buying of the elique who held their control of the market to the la moment and closed the sales at the highest poir of the day. As previously mentioned, they cause the "shorts" to cover quite freely by putting t checking at the close the tendency to a declin resulting from the buoyancy of our bonds in Lor don this evening. The

GOVERNMENTS STEADY.

The government bond market was steady for the gold-bearing issues, a reaction from the sharp a vance of Wednesday overcoming and neutralizing the effect of the further advance in gold this after noon. The currency sixes sold again at 111%, but were in request at that price at the close. The following were the final quotations:—United States cu rency sixes, 111% a 112; do., 1881, registered, 114%; do. do. do., coupon, 115% a 116%; do. five twenties, registered, May and November, 1123 a 112%; do. do., 1862, coupon, do., 115% a 115% do. do., 1864, do. do., 115% a 115%; do. do., 1865, do do., 115% a 115%; do. do., 1867, registered, Januar and July, 114½ a 114½; do. do., 1865, coupon, do. 114½ a 114½; do. do., 1867, do. do., 114½ a 114½ do. do., 1868, do. do., 114½ a 114½; do. ten-forties registered, 103 a 108½; do. do., coupon. 108 a 108½ do. fives, 1881, registered, 110% a 111; do. do. do. coupon, 110% a 111. STOCKS WEAR AND LOWER.

The stock market was heavy all day and underwer a decline ranging from % to 1% per cent—the latte extreme occurring in Northwestern, which broke 69% just as the Exchange was about to close. The depressing influences, outside the constant han mering and opposition of the "bear" clique, were to-day the advance of the Bank of England rate discount and the result of the election in Georgic the anti-administration majority in that State has ing excited fears that the Grant ticket may be d feated throughout the entire South, while serving at the same time to help the opposition chances Pennsylvania and still more remotely in

THE NOVEMBER ELECTION
throughout the whole country. It is a visionary
induence, certainly, after all the professions of Mr.
Greeley; but the surer prospect of his election
threatens the removal of the present debt-reducbond-buying administration and the substitution of something experimental. At least Wall street felt in a bad humor over the result in Georgia and conjured up pictures of a new financial policy, which might be hostile to the steady, easy-going way of the present regime. So that with the Mephistophelean mischief of the "bear" cliques and their tightening of the money market,
THE DISCOURAGED "BULLS"

helped the depression by gradually relaxing their hold upon their stocks, their wavering purposes being taken advantage of by the "bears" to start a rattling decline of everything in the closing half hour of business, the extent of which will be seen in our table below. Boston, Hartford and Erie went off to 7%, and the low priced fancies were conspicuous sufferers all around falling more proportionately than the higher priced stocks. Atlantic Mail became active late in the day with frequent sales and a decline from 20 to 1834.

Trunspay, Oct. 3-5 P. M.

Trade matters are in statu quo-a good thriving business and a generally healthy, buoyant state of affairs still being the most noteworthy characteristics. All the leading articles of merchandise continue to be sought after, not only for home consumption, but for shipment hence to Great Britain, Continental Europe and elsewhere. The extension of American comerce to foreign countries goes bravely on, and new fields are opened up almost every year, until now we have penetrated into every inhabitable country on the globe, where it has been found possible to obtain a foot-hold or put an entering wedge. It is true that, owing to globe, where it has seed totale possible to extent a tool of the exceedingly low cost of production of many commodities in Great Britain, we have not proved successful competitors for foreign custom in certain branches; but we have every advantage in other branches of commerce, while we are constantly making progress in this direction. Thus we have to chronicle a fair degree of activity in almost all articles of export, while our tonnage capacity is being taxed to the utmost, and as it has seldom been taxed before. To-day the movement in breadstuffs was fair, but, under a pressure to realize in wheat and corn, the market exhibited signs of weakness; yet there was no essential change in prices. Provisions remained nearly in the same condition as hitherto noticed. There was a little better feeling in the pork market, but lard remained dull and heavy. Nothing of particular importance occurred in the grocery market, either as regards to the demand or prices current. There was considerable inquiry for raw sugar, There was considerable inquiry for raw sugar, but at figures slightly under those now current, which holders showed no disposition to accept. There was quite a brisk movement in cotton, particularly for "spot," and the supply being hardly sufficient to meet the de-mand, an advance was readily established and the market closed firm at the improvement. Petroleum remarket closed firm at the improvement. Fetroleum re-mained quiet, but very firm for all descriptions. Quite a large business was reported in Philadelphia at a further advance in prices. Naval stores were irregular, spirits being easier and rosin firmer. No particular cause was assigned other than that spirits were offered more freely and rosin was withheld.

Corron.—The demand for spot cotton was beyond the

CHAMBER OF COMMERCE.

First Meeting of the Fall Session-A Little Light Business Transacted.

The first regular monthly meeting of the Chamber of Commerce since the Summer vacation was held yesterday, at their rooms in William street, the Vice President, Mr. George Opdyke, in

the chair; Mr. George Wilson, Secretary.

Mr. James P. Wallace was re-elected a member of the Committee of Arbitration and the following new members were elected:—Joseph M. Yates, William Libby, William Morgan, Joseph Sparks. President William E. Dodge, George Opdyke, J. S.

William Libby, William Morgan, Joseph Sparks. President William E. Dodge, George Opdyke, J. S. T. Stranahan and S. B. Chittenden were appointed delegates to the Convention of the National Board of Trade, which will be held in this city on the 15th instant. They were also instructed to extend the hospitalities of the Chamber to the Board.

A communication from Thomas B. Van Buren was read, requesting the co-operation of the Chamber toward the encouragement of American exhibitors at the International Exposition to be held in Vienna in May next. Mr. Van Buren is the commissioner appointed by the United States to that exhibition, and he seems much embarrassed by the neglect of Congress to make any appropriation to aid American inventors and manufacturers in displaying their works. On motion of Sinclair Tousey it was resolved that Commissioner Van Buren be invited to address the Chamber at its next meeting.

An amendment to the bylaws was presented, ruling that if the fees of any member remain ununpaid for a period of two years his name may, upon report, be stricken from the roils.

The New York Steam Vessel Owners' Association was granted the use of the rooms of the Chamber for meetings for a period of one year.

The sum of \$100 was appropriated by the Board as its subscription toward paying for the dag to be presented to the police. The presentation of this banner will be made on the 11th inst, on the annual parade, in commemoration of the bravery displayed by the force during the riots of July, 1863, and 1871. President Dodge will represent the Chamber at the ceremony of presentation.

The Chamber, after attending to some minor business, adjourned.

THE JEWISH NEW YEAR.

Services Yesterday-Eloquent Sermons and Charming Music.

This Jewish festival opened brilliantly on Wednesday evening. Services were held in all the syna gogues, both orthogox and reform, and very large congregations were present at each. But yesterday was the great day of the feast. The temples in Fifth and Lexington avenues, Thirty-fourth, Thirtyninth, Forty-fourth and Nineteenth streets synsgogues up town, and others not so rich and fashionable, were crowded with worshippers. For several days past the trustees of those synagogues

ionable, were crowded with worshippers. For several days past the trustees of those synagogues have been disposing of pews and seats, but they had not space enough to supply all who applied for sittings; hence the proposition was made and talked up among Israelites to open "mission" temples for the poor and those unable to pay for seats. Nothing, was done, however, in this line we believe. If the congregations would continue as large during the year as they were yesterday the hearts of the rabbies and of the several trustees would no doubt be rejoiced. But as soon as the holidays are well over there is a very noticeable falling off in the attendance of worshippers in every synagogue in the city.

Eloquent sermons were preached yesterday by Drs. Vidaver, Elnhorn, Adler, Huebsch and others in English and in German. The burden of their topics, mainly, was incentive and encouragement to the people to review their past lives, and especially the past year of their lives, to pray to God for his mercy and forgiveness for their sins and transgressions and neglect of his law and thus to prepare themselves for the great day of atonement which occurs next week. The music in most of the synagogues was very fine, and especially so in the Temple Emanuel in Fifth avenue. The orthodox Israelites will have another day of such services according to ancient custom, but the reform Jews are content with one day. The shagar will be sounded, and the faithful called to repentance and a new life. The intervening time of the day between the services is usually spent in visiting and receiving visits, and giving and receiving gitts as we do on our civil New Year's day, and there is a season of loy and rejoicing so far as is consistent with the solemnity of the season. There are some very strict, old-rashioned israelites, however, who spend most of their lowes the hours in devotions, and will not see or be seen by friends or visitors.

DESTRUCTIVE FIRE AT ORANGE, N. J.

Four Buildings Destroyed-Loss About Thirty-five Thousand Dollars. Between twelve and one o'clock yesterday morning a very destructive fire broke out, in Orange, N.

J., in the fancy store on the corner of Main and North Centre streets, occupied by the brothers Van Ness. The flames spread rapidly and the firemen were promptly on hand; but just as there was a good prospect of getting the fire under unluckly good prospect of getting the fire under unluckly the steamer blew out her safety-valve, and was therefore useless. A messenger was at once despatched to Newark for aid, which was promptly rendered, the Chief of the Newark Department himsell going with steamer No. 7. But the flames had made such headway that four small buildings, all owned by A. H. Freeman, were destroyed. An adjoining building, larger, was saved by the heroism of a youth named Harvey Losey, who, at the peril of his life, shut a window or door through which the flames were leaping. Some of the Orange firemen behaved shamefully and refused to obey their officers. They have been suspended.

THE LATE DR. D. C. DE LEON. WASHINGTON, Oct. 1, 1872.

TO THE EDITOR OF THE HERALD:—
I find in your issue of September 30 an obituary

notice of the late Dr. D. C. De Leon, which casts an unmerited aspersion on his name. The article I adde to charges him, as the head of the medical added to charges him, as the head of the medical staff of the Confederate Army, of "being in a great degree responsible for the cruelty to the sick and wounded federal prisoners." I beg, as a simple act of justice to the memory of a gallant soldier and high-toned gentleman, that you will correct this error. Dr. De Leon organized the medical staff, but two months after vacated in favor of Dr. Moore. He then filled the position of Medical Director to the army of General Lee for a few weeks, when he resigned and went as ald to General Magrader, in Texas, where he remained until the war ended. Even then he did not return to the United States, but commenced the practice of his profession in Mexico.

RAILROAD DISASTER. Accident on the Chicago and Alton Rail-

road-Several Cars Demolished but Nobody Badiy Hurt. Sr. Louis, Oct. 3, 1872.

A despatch from Edwardsville, Ill., says the express train on the Chicago and Alton Railroad ran into the rear end of an extra freight train at the crossing, near that place, last night. The passencrossing, near that place, last night. The passenger engine and baggage and express cars, and four ireight cars, were demolished. The wreck took fire, and at last accounts the passengers and train men were endeavoring to save the remainder of the train, consisting of three sleeping cars and five coaches. W. H. Bryant, United States express messenger, and the engineer and firemen, were slightly furt.

MUNICIPAL AFFAIRS.

Board of Assistant Aldermen. The Board met yesterday, President Hall in the

chair. Assistant Alderman GEIS moved that Commis-sioner Van Nort be requested to report to the Board the cost of all contracts for Belgian pave-ments and granite blocks made by the Department of Public Works.

Assistant Alderman Connon said that the motion was made in order to give Mr. Van Nort a chance to vindicate himself against the attacks of a jealous department and a gentleman whom he would not name.

The motion was adopted.

Meeting of the Board of Audit and Ape

THE ALLEGED GIFT CONCERT SWINDLE.

The parties who were arrested on Wednesday evening, on a charge of swindling the public by means of a gift concert professedly in aid of the suffering Cubans, were arraigned before Judge Dowling at the Tombs Police Court yesterday morning. George W. Brown, the agent of the Cubans in this city, was the complainant, and proved the fraud. Mr. William Howe appeared for the defendants, and claumed, first of all, that there was no such thing in existence as a Cuban government. As a proof that, it was intended to give a concert Mr. Howe exhibited a contract made with Mr. Kingsland for the use of the Academy of Music on the evening of the 10th inst. Under these circumstances he asked and obtained, the discharge of his clients.

BASE BALL MATTERS

The Mutual and Baltimore nines will contest anew on the Union Grounds, Williamsburg, this anew on the Union Grounds, Williamsburg, this afternoon, the seventh game of their championship series. Their game of Tuesday last, it will be remembered, resulted in a "tie" at the end of ten innings, and, as the two clubs are more evenly matched, perhaps, than any others in the profession, a hotly contested and well-played match may be looked for to-day.
